Transforming good intentions into great results!*

Any queries please contact the school on 5472 2222

Dear Parents / Caregivers,

Planning for success is important to ensure your child's educational goals and future pathways can be achieved. Noosa District State High School offers a wide range of subjects and pathways options for students to enable the best opportunity for future success.

Choosing the right subject is an important part of Planning for Excellence and involves some careful decision making. We would like to support this process by providing key information and answering any questions you may have at our Subject Selection Expo. At this evening you will have the opportunity to engage in a special presentation and interact with Heads of Department, outside providers and teaching staff to gather information on all subjects and career options. Key resources will also be provided.

All subject selections will be completed online following the Subject Selection Expo with the following key timelines:

- Online selections open - Tuesday 31st July
- In-class selection support - Week of 6th August
- Online selections close - Monday 13th August

We look forward to working with you to support your child's future through the subject selection process.

We hope to see you on the 31st July.
